Hospital Write-Up (Nelda Langlois Ravens)	1
Catholic Section	3-38
Protestant Section	39-80
Illinois Veterans Home	81-82

There are two cemeteries located on the hospital grounds, one Catholic and one Protestant. Each grave has a numbered marker. Every year just before Memorial Day, new burials within the year are marked with the name, birth date and date of death. Most burials there were former residents of Chicago.

Because of the nature of the hospital, information on a patient cannot be released except on a signed consent from a relative.

The Manteno State Hospital began construction in 1928 and the first patients were admitted in 1930. In the 1960's, the hospital handled approximately 8,000 patients. The cemeteries are large and are located on the far east side of the grounds on County Road North 800 East, about 1/2 mile east of County Road East 400 North.
