

## CABERY WOMAN LAID TO REST LAST SUNDAY

MISS MATILDA WALDSCHMIDT PASSED AWAY LAST THURSDAY

Friends of the Waldschmidt family suffered a profound shock last Thursday when the news spread that Miss Matilda was at death's door. The sisters and brothers ministered to their beloved one on Wednesday and Thursday in feverish anxiety to stay the hand of death, yet that all-powerful hand which must some day grasp all mortality claimed her for its own near midnight on Thursday. In sympathy may we join the sorrowing family in these beautiful lines:

We loved her, yes we loved her,  
But Jesus loved her more,  
And He sweetly called her  
To yonder shining shore.

The golden gates were opened  
And a voice called "Come!"  
With farewells unspoken  
She calmly entered home.

### Obituary

Miss Matilda Waldschmidt, second daughter of Caroline Decker and John Waldschmidt, was born near Bristol, Illinois, in Kendall county, on May 6, 1860.

When a year old she came with her parents to Dwight where she resided three years.

At the age of four she came with her family to a farm near Cabery where she lived until her parents moved to a new home in the town of Cabery. At that time her brother, John, moved to the old homestead and these Matilda went to make her home until a year ago Thanksgiving when she came to Cabery to make her home with her sister, Emma.

She had been in poor health for about three years, but was never bedfast until two days before her death, and when the loving hands of her sister finally put her to bed she died at 10:50 P. M., Thursday night, February 18th.

At the time of her death she was seventy-one years, nine months and twelve days old.

She was one of a family of ten children, two sisters of whom have preceded her in death, Mrs. Carrie Reising, of Peoria, and Mrs. Minnie Smith, of Orion, Michigan.

The parents passed to the Great Beyond some years ago, within a few years of each other, after having enjoyed a goodly number of years in the town home.

The brothers and sisters left to mourn Miss Matilda's loss are: Mrs. Eliza Kirstein and Mrs. Annie Huntley, of Clarion, Iowa; Mrs. Andrew Clayton, of Kingsville, Texas; William, of Orting, Washington; Fred, John and Emma, of Cabery.

Miss Matilda was of a naturally shy and retiring disposition, clinging close to her family and near neighbors for her friendships.

She was always a ready and willing worker in the home, and her quiet presence will be sorely missed, especially by those with whom she made her home for so long.

One of her chief pleasures was in listening to the sacred songs on Sunday evening over the radio, and the three songs sung at her rites were her favorites of the ones to which she listened, The Old Rugged Cross, Beautiful Isle of Somewhere, and Nearer My God to Thee. These were sung by Mr. and Mrs. R. E. Gifford, Mrs. William Sadler, Sr., and Mr. Orman Olson accompanied at the organ by Mrs. Hattie Laird.

The funeral services were conducted at 1:30 o'clock Sunday afternoon by Rev. R. L. Barackman, of Chicago Heights, who delivered an impressive sermon. The body was then escorted to Mount Hope cemetery, its final resting place, by six friends as pallbearers: Frederick Raab, McKinley Hall, Charles Fatter, James Sadler, Anson Gates and Charles Christ. Mrs. Ruth Koerner had charge of the floral pieces carried by Mrs. Jack Clapp, Miss Evelyn Ferden, Miss Beatrice Hall.

Those from a distance who attended the funeral were: Mrs. Eliza Kirstein, Mr. and Mrs. Andrew Huntley, Ed. Holmes and George Draw,

### STATEMENTS ABOUT HIM ARE UNTRUE SAYS JOHN FOREMAN

(Herscher Pilot, February 18)  
Information contained in the affidavit made by Mrs. John Moore before State's Attorney T. R. Johnston several weeks ago, accusing her husband of setting fire to the Herscher building in January, 1931, wherein two lives were lost, is in direct contradiction in numerous details to the testimony given by Mrs. Moore before Coroner Cartier of Kankakee and the state fire marshal when the origin of the fire was first investigated. This statement was made today by John Foreman, a justice of the peace of Herscher, and who also testified at the coroner's inquest.

According to Mr. Foreman, Mrs. Moore disclaimed any knowledge of the cause of the fire, when first questioned by the authorities; but about three weeks ago she appeared at the Foreman home and there admitted to Mr. and Mrs. Foreman that she had withheld the truth and had decided to furnish the true details to the state attorney, which resulted in her affidavit to Mr. Johnston shortly afterward. It is assumed that she took this belated action because her husband had failed to keep his promise to pay for a permanent wave, a new outfit of clothing and to give her \$200 and \$100 for each of her children when he collected his insurance money. Mrs. Moore's statement to State's Attorney Johnston conveyed the information that her husband had promised her these things if she would keep silent regarding the cause of the fire.

**Says Facts Misrepresented**  
Mr. Foreman stated that Mrs. Moore had seen fit to mention his name on several occasions in her statements concerning the fire, which would tend to reflect upon him, and branded as absolutely false every statement Mrs. Moore had made in which his name was mentioned.

Among several of her misrepresentations of Mr. Foreman's activities with Moore was her statement that Foreman had put out the first fire which broke out in the building several weeks before the building was destroyed. Mr. Foreman denied he knew anything of the incident until hours after the fire was extinguished. She further stated, according to Mr. Foreman, that he and Moore had made a trip to Chicago on a particular day. The trip in question was to Flanagan to pick up moving picture films, and not to Chicago.

Friends of Mr. Foreman wholly discredit the statements made by Mrs. Moore which would cast the slightest reflection upon him. Mr. Foreman's character and reputation in Herscher are unquestioned.

### FAREWELL PARTY

Sixteen members of the Herscher Home Bureau met Friday at the home of Mrs. Harry Ryan for a social afternoon in honor of Mrs. Martin Madison. Leap year games were in order as well as many patriotic stunts based on Washington and Lincoln tales. All present entered into the spirit of the occasion. Mrs. Madison has been a faithful Home Bureau member for many years and has served the unit as president, and local leader as well as in many other capacities. Her cheerful assistance will be missed but the good will of the members goes with her to her new home. The Madison family are moving to the Taylor farm northeast of Kempton. Refreshments of ice cream, wafers and coffee were served at the close of the afternoon. Mesdames Fred Kamman, Clarence O'Connor and Theodore Wadleigh were on the committee that assisted the hostess.

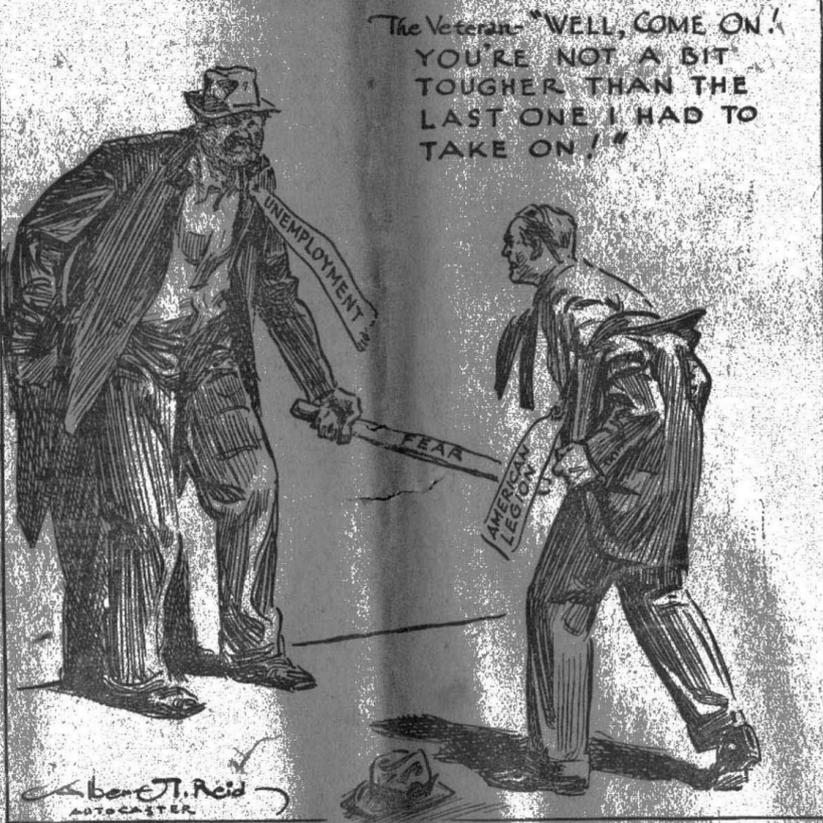

Sr., of Clarion, Iowa; Mrs. A. F. Clayton, of Kingsville, Texas; Mr. and Mrs. H. G. Walmuth and family and Mr. and Mrs. Elmer Geisler, of Joliet; Mr. and Mrs. Vernon Walmuth, of Hammond, Ind.; David Huntley, of Grant Park, Ill.; Joseph Reising, of Peoria; Mrs. Hugh Kirkpatrick, of Bloomington; Frederick Raab, of Reddick; Miss Maggie Schumacher, Mrs. Frank McGinnis, son, Frederick, and Mr. and Mrs. L. Topliff, of Kankakee; Mrs. Jennie Tinker, of Cullom; Mr. and Mrs. George Drew, Jr., of Chicago, besides a host of friends from Kempton and Cabery.

### CARD OF THANKS

We sincerely appreciate the kindness of our neighbors and friends who offered assistance and sympathy during the illness and after the death of our beloved sister, Matilda. The Waldschmidt Brothers and Sisters. (adv.)

### WASHINGTON PARTY

Mr. and Mrs. W. H. Esington and Mr. and Mrs. William Curd, of Cabery, and Rev. and Mrs. Charles Hoffmire, motored to Chicago last Friday where they were guests of Mr. and Mrs. J. A. Renn. The Renn apartment was beautifully decorated for their reception in the Nation's colors in honor of the coming birth anniversary of George Washington, as a Washington party was given following their arrival. The dining room was especially dainty in its holiday array and the favors of wee hatchets awaiting each guest were especially cunning.

The dinner was a sumptuous affair which did ample justice to the hostesses culinary ability. The three-course menu was as follows:

Persian cocktail, braised pork chops, mashed potatoes and gravy, buttered peas, creamed green lima beans, pineapple preserves, relish pickles and cheese, hot thimble huns and maple nut ice cream served in molds, angel food cake, chocolate sticks, mints, salted nuts and coffee.

The afternoon was spent in the perusal of scrap books, photographs and Mr. Renn's stamp collection which contains a specimen of every U. S. stamp ever published.

The guests departed late in the afternoon, happy over another opportunity to partake of the hospitality of the Renn home.

### NEWLY-WEDS VISIT CABERY

Mr. and Mrs. Joseph Maras, of Jackson, Minn., and Miss Mary Bergin, of Harvey, were callers at the Mr. and Mrs. Jacob Schafroth home and at the Mr. and Mrs. George Thorson home on Tuesday afternoon. Mr. and Mrs. Maras were married February 8th at Jackson, Minn., and after a honeymoon spent in Wisconsin, Illinois and other parts will go to housekeeping near Jackson. The bride is the youngest daughter of Mr. and Mrs. John Donwen, who now reside near Jackson, but were former residents in the vicinity of Cabery. The many friends of the Donwen family extend their best wishes to the newly-weds.

### FIRST ROUND GAMES IN DISTRICT TOURNAMENT

First round drawings for the Pontiac district tournament include: Fairbury, bye. Pontiac vs. Chenoa. Odell vs. Cornell. Kempton vs. Cabery. Morris vs. Dwight. Lexington vs. Cullom. Saueminn, bye. Dana vs. Flanagan.

### NOTICE

Thursday evening at 7:30 a meeting will be held in the village council room to select a cast for a play to be given in the near future. Everyone interested please come. (adv.)

### SUPPER AND PROGRAM SUCCESS

The Washington's Birthday Supper and program sponsored by the Co-workers of the Presbyterian Church was a decided success due to the united effort of willing hearts and hands, and the helpings of the community as a whole. A supper was held in the I. O. O. F. building which was prettily decorated in the national colors, with pictures of Washington and Lincoln much in evidence.

The program followed at the church where the decorations and the parts portrayed by the children all reminded us of the great "Father of our Country," and what we, as citizens, owe to his memory and to the faith he had in the land he helped to free from the entanglements that threatened to destroy it.

Two contests enlivened the activities. Francis Gerth received a box of candy. Lydon Turner and Glen Sargeant tied for honors in the contest, "Who in our community most resembles Washington?" In the draw Mr. Turner won out, receiving a fine hatchet with the admiration, "Not to chop down any cherry trees." The supper, candy booth and program netted \$89.00.

### PEOPLE OF DANFORTH WANT BANK REOPENED

Last week's Gilman Star contained an interesting article on the status of the closed Farmers State Bank of Danforth. The bank was closed on December 17th to forestall a run.

The people of the Danforth community, realizing that they must have a bank, have been busy since the closing to effect its reopening. They have sold \$30,000 new capital stock, and most of the depositors have signed waivers on their deposits, agreeing to leave a major portion in the bank to insure its continued operation. With such whole-hearted support, it is probable that the bank will soon reopen.

### HENRY REISING ESTATE TO BE ADMINISTERED

### KEMPTON 85, MAZON 15

Kempton, Feb. 23.—Kempton avenged their defeat of an earlier date by giving Mazon one of the worst wallbops they had this season. Coach Schroeder's men were unable to penetrate Kempton's shifting defense. The Mazon miners made good nine out of seventeen free tosses, while Kempton counted three out of seven. This was Mazon's first visit to Kempton High gym.

### Cullom vs. Kempton High Friday

Ancient rivals will meet this Friday at Kempton. Both teams have been showing added improvement in the past few weeks. The first game will be played between the Kempton seconds and the Cullom seconds at seven o'clock. The big contest will start at eight o'clock.

### PNEUMONIA IS FATAL TO MRS. ANDERSON

Mrs. Henry Anderson, 34, 464 South Fourth avenue, died this morning at 5:30 o'clock after a brief illness of pneumonia.

The body is at Rehr funeral chapel, 290 South East avenue, where friends may call. The Rev. David Creighton of Sheldon will conduct funeral services at First Presbyterian church at 1:30 o'clock Thursday afternoon, followed by burial in Pilot township.

As Amelia C. Raggenburg, daughter of Joseph and Nettie Raggenburg, she was born at Chebanese on November 30, 1898. She was married in Kankakee in 1920.

Besides her husband she leaves her parents, and four children—Arlene, Clarence and Edward; three sisters—Mrs. Emile Frantz, Mrs. Jacob Frantz and Mrs. Fred Skelton, all of Cabery; and three brothers—August and Joseph, of Bay City, Mich., and Albert of Cabery.—Monday's Kankakee Republican-News.

Friends in Cabery were shocked when news of this young woman's death reached town as she was one of the vicinity's well known school teachers before her marriage to Mr. Anderson.

### LAND SALES REPORTED AT EMINGTON, ASHKUM

During the past week Mrs. Eva Ehrhardt purchased the homestead 80 acres of land from F. A. Vant, which is located southeast of Emington. Mrs. Ehrhardt's daughter and husband will remain on this land and work it the coming year.—Emington Joker.

The Joe Petit farm located southeast of Ashkum, was sold at public auction here last Thursday. We understand C. J. Rabin was the purchaser at a price of \$113 per acre.—Ashkum Journal.

## DEATH TAKES A WELL KNOWN KEMPTON LADY

Eva Jane Gibson, daughter of Mr. and Mrs. Robert Gibson, was born at Grand Rapids, Michigan, October 1, 1866, and departed this life on February 20th, 1932.

She moved to Illinois with her parents in 1883, and settled near Ottawa, LaSalle county.

On June 28, 1879, she united in marriage with I. J. Devereaux, of Livingston county. To this union five children were born, two sons and three daughters, all of whom were with her the day of her death.

Mrs. Devereaux expressed her faith in Jesus Christ as her personal Saviour early in life, and united with the Methodist Episcopal Church at the Yale schoolhouse near Ottawa in 1874, later transferring her membership to the Kempton Methodist Episcopal Church. She was a member of the Woman's Home Missionary Society, and the Ladies Aid. Always faithful in the discharge of her Christian duties. She was a student of the Bible and firmly believed in the fulfillment of the following scripture—"Study to show thyself approved unto God, a workman that needeth not to be ashamed, rightly dividing the word of truth."

Her last illness was of short duration, her suffering was intense, but she bore it patiently until death released her.

She leaves to mourn her departure her aged husband, I. J. Devereaux, five children, William, of Cullom; Solomon, of Kankakee; Mrs. E. E. Wick, Mrs. Eddie Kemp, and Mrs. L. P. Cash, all of Kempton, and six grandchildren, two great grandchildren, ten, two sisters and four brothers, also a host of neighbors and friends.

Funeral services were held at the Methodist Episcopal Church on Tuesday afternoon in charge of her pastor, Rev. Ralph Dean, assisted by the Rev. C. H. Hoffmire, of Ransom, a former pastor and personal friend of the family.

Mrs. Oma McKinney, Mrs. Blanche Nickerson, Oscar Merkle and H. F. Stewart sang three songs—"Beautiful Isle of Somewhere," "God Will Take Care of You," and "When the Mists Have Rolled Away," with Mrs. Blanche Clayton as accompanist.

Pallbearers—A. S. Hatch, T. J. Rich, E. K. Bute, W. J. Parker, A. J. McKinney and Maurice Tuttle. Mrs. Joseph Koerner had charge of the flowers and was assisted by Mrs. C. H. Hoffmire, Mrs. Archie Hatch, Mrs. E. K. Bute, Mrs. T. J. Rich, and Mrs. Ralph Dean.

Burial was in the Kempton Hill Burial Park.

Those from a distance attending the funeral were Mr. and Mrs. S. R. Devereaux and family, Mr. and Mrs. W. Burton, Mrs. Evans, of Kankakee; Mr. and Mrs. Herb West, of Buckley; Mrs. Nettie Reising, of Chicago; Mr. and Mrs. Charles Penry of Chicago; Miss Rena Sneedaker and Mrs. S. L. Sutton, of Grand Ridge; Charlie Martin, of Fletcher; Mr. and Mrs. Arthur Dryer, Warren Dryer, Mrs. Jennie Calkins, Mrs. Elizabeth Rickards, I. J. Rickards, Mrs. Lenora Johnson, of Pontiac; Rev. and Mrs. Hoffmire, of Ransom; Maurice Tuttle, of Saueminn; Mr. and Mrs. Clifford Esington, of Cabery, and many friends from surrounding towns.

### CARD OF THANKS

We wish to express our deep appreciation to all who so kindly rendered their assistance to us on the occasion of the last illness and death of our beloved companion and mother. To the choir for the beautiful selections; to the minister for his appropriate message of comfort and challenge; to all who furnished cars; to the pallbearers and the flower girls; and to the many noble-hearted neighbors and friends for their encouraging words of sympathy and their many acts of kindness.—I. J. Devereaux and Family.—(adv.)

Japan Rebuked by League Council, but Still Persistent — President Hoover Asks Congress for Reorganization of Government.

By EDWARD W. PICKARD

JAPAN during the week seemed to be getting deeper and deeper into the morass of international trouble, but gave no outward sign of weakening in her determination to subdue the Chinese.

Mr. Stimson formulated another stern protest against the use of the international settlement in Shanghai by the Japanese as a base for military operations, and declined to be impressed by Japan's argument that the other powers also had landed troops there.

Mr. Stimson formulated another stern protest against the use of the international settlement in Shanghai by the Japanese as a base for military operations, and declined to be impressed by Japan's argument that the other powers also had landed troops there.

AUTHORIZED by his government, the Japanese minister to China served an ultimatum on Gen. Ts'i Ting-kai, commander of the Nineteenth Chinese route army, demanding that the Chinese retire twenty kilometers from Shanghai and threatening to drive them away by force should they not comply.

BY A vote of 85 to 48 the senate defeated the La Follette-Costigan bill to provide \$750,000,000 from the federal treasury to the states for the relief of the jobless and needy, of which sum \$375,000,000 was to be handed the states for highway building.

FOR the third time American Consul General Cunningham had to protest against a raid by Japanese plain clothes men on the middle school of the American Methodist Church, South.

IN SELECTING a successor to Oliver Wendell Holmes on the bench of the Supreme Court of the United States, President Hoover set aside geographical considerations and chose Benjamin Nathan Cardozo, chief justice of the New York state court of appeals.

PRESIDENT HOOVER on Wednesday sent to congress a special message asking support for a reorganization of the government and recommending the creation of four new federal offices.

Specifically, the President suggested: 1. Consolidation of the millions of dollars' worth of construction work undertaken annually by the various federal departments into a new office to be known as public works administrator.

mission remaining in an advisory capacity to that agent.

3. Transfer of the administrative functions of running the American merchant marine to the Department of Commerce under direction of a new assistant secretary.

4. Creation of a new assistant secretaryship of interior in charge of "conservation," under whom would come reclamation work and the broad supervision of water power development.

5. Placement of all public health activities of the government under a new assistant secretary of the treasury.

6. Promotion of the commissioner of education to an assistant secretary of interior, with transfer of all educational undertakings to his care.

7. Promotion of the director of agricultural economics to an assistant secretary, and the designation of an existing aid to the secretary of agriculture as assistant secretary for agricultural research.

The immediate changes, Mr. Hoover asserted, would cost about \$40,000 per annum in additional salaries, but "the saving in cost of administration would be many times this sum."

DEMOCRATIC leaders of the house prepared to place their own taxation and economy proposals before the nation as a means of balancing the national budget.

Following the declaration of Speaker Garner that President Hoover had failed to promote real economy, Representative Rainey of Illinois, Democratic leader, characterized the treasury tax proposals as "woefully insufficient."

The first step in the economy program was the creation of a special committee to study means of abolishing and restricting government bureaus to cut expenses.

SPEAKER JOHN N. GARNER'S big western hat is still on his head, but his friends have started his boom for the Presidential nomination by the Democratic national convention.

Mr. Garner ised that he would get the full vote of the Texas delegation and would have the support of countless other Democrats over the country when the nation knows more of his character and services.

"He has been speaker of the house for only a few weeks," said the Texas senators. "During that period he has shown under his leadership has attracted the attention of the whole country by reason of its prompt, thorough and statesmanlike conduct of its affairs.

They recalled his twenty-nine years in the house as a representative from Texas as service "distinguished for its breadth of vision, its political courage, and its rugged and aggressive democracy."

Mr. Garner said he had known nothing of the statement beforehand and had no authorized spokesman. He refused to talk of his Presidential chances.

BUFFALO BILL

ASK the average American "Who was Buffalo Bill?" and he will answer "Why, Col. William F. Cody, of course!"

In 1890, a year of drought in Kansas when the grasshoppers darkened the skies and ate up what crops were planted, a certain William Matthewson of Wichita, Kans., went out to kill buffalo and sent back several wagon-loads of meat to feed the starving settlers.

During the world war on the southern plains in 1897-98 William Comstock, a celebrated guide, hunter and one of the favorite scouts of Gen. Phil Sheridan, gained such renown as a buffalo hunter that army officers at Fort Wallace, Kan., dubbed him "Buffalo Bill" Comstock.

So a hunting match between Comstock and Cody was arranged by their partisans and in this match Cody was victorious, killing sixty-five buffaloes to Comstock's forty-eight within a specified time.

BARBARA FRIETCHE

HEROISM met its reward for the Barbara Fritche of Whittier's famed poem of that name. Forth from her attic window in Frederick, Maryland, leaped the courageous old woman, waving her bullet-torn Union flag and shouting down at the Confederate soldiers who had fired at it the famous lines:

"Shoot if you must this old gray head, But spare your country's flag!" And Stonewall Jackson, over his sun-burned features, a "flush of shame," replied in the equally famous couplet:

"Who touches a hair of you gray head, Dies like a dog, March on!" Fame has dealt less kindly, however, with the real Barbara Fritche. Although Whittier believed and investigation since has established that a real woman of that name did indeed reside in Frederick at the time, we have her own nephew's word for it that Dame Barbara was ninety-six years old, bedridden and living in a house some distance from Jackson's line of march.

Germany's proposals were submitted Thursday. They included abolition of all air armaments, destruction of air reserves of stocks, abolition of conscription, prohibition of heavy artillery and tanks, limitation of the size of warships and prohibition of aircraft carriers and submarines.

Manure Piles Not Deadly to Borers

Only Thorough Trampling of Stalks Will Kill Corn Pests.

(Prepared by the United States Department of Agriculture.)—WNU Service.

The thorough trampling of cornstalks infested with European corn borer in feed lots results in the destruction of practically all of the borers, but placing the stalks and refuse in an ordinary farm manure pile does not kill the pests, says the United States Department of Agriculture.

Details of an investigation of survival of borers in feed lots and manure piles appear in Circular 194-C, "Manure Piles and Feed Lots as Sources of European Corn Borer Infestation," issued by the department. The study was prompted by the knowledge that when corn is put into silos the borer larvae are destroyed.

Cornstalks on the surfaces of typical farm manure piles in the region of Silver Creek, N. Y., were examined. Artificial manure piles also were made in the study of the borers. At Toledo, Ohio, actual feeding lots were examined to discover how many borers survived.

Based on the investigation, the department finds manure piles unsatisfactory as a disposal place for infested cornstalks and refuse, but recommends disposal in feed lots when it is certain the material will be thoroughly trampled by live stock.

Copies of Circular 194-C may be obtained upon request from the office of information, United States Department of Agriculture, Washington.

Worth-While Advice in "Farm Relief" Program

"Sure farm relief" suggestions are made by A. H. Tedmon, Arapahoe county agricultural extension agent, in a circular to farmers of his county. Tedmon's program, a copy of which has been received by the Colorado Agricultural college, is as follows:

- 1. Milk a few good cows; feed recommended rations. 2. Fatten one pig for every two adult members of the family; cure the meat properly. 3. Keep at least 100 good hens, correctly housed and fed. 4. Raise a good garden; water from windmill if possible. 5. Plant cash crops only, which show little or no surplus. 6. Grow all your own stock feed. 7. Butcher fat cows and steers; trade meat with neighbors. 8. Raise your own living; keep your own tight. 9. Get down to earth and do the best you can today. 10. Drive a horse until you are at-ford to buy gasoline.

Don't Fatten Brood Sows

Brood sows that will fatten spring litters should not be overfed. Overfat sows often have weak pigs and the mortality rate is usually very high. If the sows are to be good milkers they should have the run of a good pasture during the winter and spring, and if this is impossible they should be fed alfalfa or clover hay in racks. Their ration needs a good supply of protein, either tankage or soybean meal. Whole soybeans are satisfactory for sows but not for fattening hogs. Corn alone is not sufficient on the ration. Use good supplements and some minerals. Commercial minerals are easily available or home-mixed minerals can be used satisfactorily.—Prairie Farmer.

Housing a Bull

Writing in an English dairy journal, a breeder of that country makes among others this interesting statement regarding the housing of bulls: "The way that has been successful so far has been our endeavor to let the bulls see and hear as much as every one can in their necessarily restricted lives, and never shut them up where they can do neither and therefore have empty brains. Satan finds lots of things, no doubt, for idle hands to do, but nothing to what he does for a bull's idle brain (and horns)!"

If the bull is confined to his pen, let him view the world through the open upper half of his door.—Hoard's Dairyman.

Silage Requirements

Aside from the normal requirements in making silage, the essential factors in putting corn fodder in the silo are: (1) a good job of cutting must be done; (2) plenty of water must be added at the time of filling if the silage is to ferment and keep properly. The approximate quantity of water needed is a weight equal to the weight of the fodder. A part of this water should be added at the cutter-to be blown in with the cut fodder. Some water must be added in the silo to the surface as the silo is filled. Some farmers run water in their silos overnight.

Animals Need Water

Animals need more warm water and some hog feeding experiments indicate a 10 to 15 per cent saving in feed by having warm water instead of ice water before live stock in winter, according to the Nebraska College of Agriculture. The same is true with poultry, and hens lay more eggs if they drink warm water. Water at the temperature at which it comes from the well is usually satisfactory. There is little gained by chopping ice out of the tank.

POULTRY

FEWER BIRDS, BUT THEY LAY BETTER

Increased Egg Production Is Being Maintained.

(Prepared by the United States Department of Agriculture.)—WNU Service.

Hens and pullets are fewer, but egg production is being maintained because the fowls are laying more eggs per bird. On October 1, 1931, there were 6.2 per cent fewer hens and pullets for layers in farm flocks of the crop reporters as compared with October 1 a year ago, and there were 5.2 per cent fewer young chickens. An increase of 1 per cent is reported for young chickens other than pullets for layers.

Egg production has been maintained, says the department, despite the decrease in layers. The number of eggs laid per farm flock was reported as 18.6 eggs on October 1, compared with 18.2 eggs on October, 1930, and 18 eggs for the October 5-year average. The aggregate of 10 reported layings on the first of each month from January to October is 261.1 eggs per farm flock in 1931, compared with 260 eggs in 1930, and 255.2 eggs in the five years 1925-1929.

Converting the statistics into "eggs laid per hen," the department says that the October 1 average for 1931 was 26.2 eggs per 100 hens and pullets of laying age, compared with 24.8 in 1930, and 25.7 in 1929, and a 5-year average of 25.2 for that date. Ten reported layings, January to October, aggregated 389.5 eggs per 100 birds last year, against 372.2 eggs in 1930, and 370 for the 1925-1929 average.

Proper Regulation of Light in Laying House

Pullets that are fully matured, and in good condition, should have lights as soon as they are placed in the laying house. The increased feeding day will enable them to eat enough to maintain their condition and stimulate egg laying. If, however, the pullets are immature when placed in the house, it is not advisable to give them more than a 12 to 13 hour day. This amount of light will enable them to eat more feed, which in turn will help them to complete their growth, but will not stimulate high production. If the birds are not fully grown before heavy production begins they will become somewhat stunted and likely lay smaller eggs.

Don't Pasture Alfalfa

Alfalfa fields which have been revived by late rains should not be pastured this fall unless there is a foot or more growth, advises South Dakota State college. Pasturing may cause severe damage to the root systems of alfalfa plants. The plants should be allowed to go into the winter with a good top growth so as to store plant food in the roots for a vigorous growth next spring. In addition to the plant food translocation, a heavy growth holds snow and modifies ground temperature enough to prevent severe heaving and also increases moisture content of the soil.—Prairie Farmer.

Alfalfa for Hens

Most corn belt flock owners have available the best green feed substitute that has been found. Even if one has no leafy, fine-stemmed green alfalfa hay on one's own farm, there is generally some available in the community. If necessary, one can pay the price of two or three pounds of corn for a pound of this sort of hay, for the amount needed to give the laying flock what they need in order to carry on heavy winter egg production.—Wallace's Farmer.

Poultry Notes

Coarsely ground corn cobs are now used to some extent as litter in hen and hog houses. Farm mills run by tractor power make this grinding practical.

Poultry and egg marketing schools to guide poultry raisers in selling their products have been established throughout Minnesota by the University of Minnesota department of agriculture.

The Leghorn breed of chickens was first introduced into the United States in 1585.

## CHAPTER X

### Lee Confesses His Love

Her tears ceased presently, and she rose, bathed her face and spent some time before the mirror, doing everything she knew to efface the blotchy effect of them. Life seemed very dark and hopeless. She felt that she had done everything, tried everything, in her power to put things right, and that it had been utterly unavailing. Well, she had better do as he had said, and go. And yet she was sure that he was so near to loving her. Last night during the storm, how gentle and dear he had been. Very willing, too, to hold her close in his arms and press his somber face caressingly to her gold hair. Surely he had loved her then? Surely it had been love that had made him unable to bear the torments of jealousy that Jocelyn's lies had aroused; had made him abandon plans and engagements, and get into his powerful car and come post haste to her here, to learn the truth for himself? And yet if it were love, he was utterly unwilling to own it. What was left for her to do? Just to do as he had said, she supposed, and leave him. . . . Should she? Now? Right away? And let him find her gone when he got back? The idea held away for a while, but somehow she couldn't bring herself to act upon it. She knew it was hopeless and yet she must just see him again before she went; must let him know that she was going. . . . But he seemed in no hurry to get back to her. She waited tea till six and dinner till nearly nine. Still he didn't come. So dinner was a lonely meal that evening, that seemed to be threatening to choke her with each mouthful. Then this thought struck her that he did not intend to come back. No, that could not very well be, because he had taken none of his things. Oh, well, whether he came back or not, she would go tomorrow morning, first thing. Back to her father, confessing that failure she had told Jim she would not confess. . . .

She went to her room and began gathering her belongings, ready for packing in the morning. Packing some of them now, feeling wretchedly unhappy; her heart aching as it never had ached before. . . . She was engaged in this way, when suddenly she heard him return. She straightened up and stood rigidly still at the sound of his steps. He came straight to her door and opened it without preliminaries of any sort, shut it behind him and leaned back against it. She was startled at sight of his face, for she had never seen him look just as he was looking now. . . .

"What are you doing?" he demanded, his voice strained and queer. . . . "Packing," she answered. "I'm going to leave me?" . . . "Yes, you told me to." . . . Their eyes met in a look that held. Suddenly he came toward her; caught her arms, looked down into her face with burning eyes, and said: "You're not. Do you understand? And don't ever shut me out again; as you did this afternoon. Don't. . . . D'you hear?" The words were shaking from his lips as if the emotion that prompted him were threatening to rend him. . . .

"You've beaten me, Lucy. I was lying to you when I said that I didn't long for you. . . . I'm mad with longing for you. . . . We've worked your woman-power on me and beaten me. . . . I love you. . . . Love you." The repetition came with an emphasis that made the words sound curiously desperate, as if it were indeed a surrender of all his strength. . . . "Jim! Is this true?" she asked, and her heart was knocking hard in her breast. . . . "True?" He laughed, oddly. "True? When I'm so mad for you that I can't think of anything else? . . . When your face comes between me and everything I try to do? When I'm giddy drunk with the nearness of you. . . . True?" He laughed again in the same way and the strength of his hands around her arms was so great that it was painful. Suddenly he pulled her close. . . . "Love you? . . . Do I love you. . . ." he cried in a low, broken voice. "I'll show you how I love you. . . . I'll show you how true it is. . . . His arms went wholly round her and he crushed her up to him, so that she could scarcely breathe. Then she found his face close upon hers, and his kisses on her hair, on her cheeks, on her throat. . . . "Jim. . . . Jim. . . ." she faltered out. . . .

"Love you? Do I love you. . . ." Words fell from his lips in a torrent of passion, and then went to silence as his lips closed down upon hers. . . . A timeless moment passed, while she stood there crushed in his arms; unable to move; almost unable to breathe for the passionate strength of him. She was lost in the ecstasy of his kisses; lost in the heaven of his love; her heart beat out sheer rapture in her breast. . . . He raised his head presently, a queer, triumphant laugh breaking from him; then looked down into her face, trying to see her eyes. But she kept them lowered, until, with a hand beneath her chin, he forced her to look up at him. . . . "You asked me whether it was true. . . ." he said, unsteadily. "Is it, Lucy?" . . .

"Yes," she whispered. "It is true. . . . "Are you satisfied now that I love you?" he went on. . . . "Yes, Jim. You love me. It is true, this time. . . . Real. . . . I have no doubts. . . . "This time?" he questioned. . . . "It was not true or real before. When you made me love you, right at the beginning. . . . When you held me in your arms. . . . Kissed me. . . . It was not real then, Jim. . . . But now. . . . This. . . . Oh, yes it's real this time. . . . She breathed a little sigh and leaned her head upon his breast again. His arms tightened round her again, roughly, savagely almost. And his voice was queer and harsh as he said: . . . "I think it's always been true. . . . Always been real. . . . I think I've always loved you, Lucy. Anyway, you've always tormented me; maddened me; it's been sheer torture to be near you, torture to be within arm's reach of you. . . . To long for you so. . . . "Always, Jim?" She twisted her face upwards as she asked the question. "Even that night. . . . That night of our wedding day. . . . When you told me that you hated me?" . . . "Oh, I don't know!" he cried. "There no precise moment, or hour, or day for these things. They just happen. Take you unaware. Stand upon you to destroy your peace. . . . Perhaps hate is love, when it is like that. . . . Burning. . . . Torturing. . . . Don't question, Lucy. . . . Take my love. . . . Give me yours. . . . Forget everything that has been. . . . Bury the past. . . . Let the future

"You have known that I loved you? Haven't you? Isn't that what you meant yesterday? Isn't that what you tried to make me confess? Well, you've done it. You have got it from me. Beaten me. I'm done. . . . Can't hold out against you any longer. I told you I was only a man, Lucy. Nothing more; nothing less. And you have known what it means, have you? You have known the torment of it, too? Then you know what it is to me now to hold you in my arms. . . . To kiss your lips. . . . To know that at last you are mine. Mine. All the sweetness of you. . . . All the beauty. . . . He pushed her away suddenly, until she was at arms' length from him, and looked her up and down with hungry eyes. "You're some sort of miracle, aren't you, Lucy?" he added shakily. "Can anything so lovely be real?" . . . She laughed, rather tremulously, immensely happy at his admiration, and drew herself away from him further yet, until his clinging hands left her free, and she stood at a slight distance, looking at him with exquisite eyes, a smile on her lips. . . . "You're rather nice to look at yourself," she said softly. "Hasn't anyone ever told you about it before? There was a touch of shy humor in her voice, and as he came toward her she backed away, half-teasing; half, really shy. He started after her, hands outstretched, eyes wild. . . . "Don't play with me, Lucy," he said, a curious tone almost like a warning in his voice. "Don't play the fool with me. I can't stand it. . . . "Why, darling," she cried softly, melting to a wonderful tenderness. "I'm not playing with you. . . . I'm just trying to realize it. Just trying to believe that it isn't a dream, and that I shall wake up in a moment and find things. . . . as they were. . . . She caught a breath. . . . "Then if you are not playing with me, come here and show me that you love me. . . . Prove it to me. . . . "he demanded. She moved toward him again, that sweet, young shyness still in her eyes, and on her lips. Then held out her hands and finished the short journey at a little run. He remained unmoving, letting his arms hang at his sides, letting her stand close before him. . . . "Show me that you love me," he said again. She raised her hands and slid them up round his neck; pulled down his head, and laid her lips to his. . . . "Jim. . . . Jim. . . . I love you. . . . She whispered between soft little meetings of their lips. "Love you with all my heart and soul. Love you so much that I don't see how I could love you more. . . . And I want your love just as much as you want mine. . . . I've longed for it, just as you have. . . . And I'm yours. . . . Wholly. . . . Absolutely yours. . . . Dear, believe it; because it is the truth. . . . at that his arms were round her again, and reality was once more sent spinning into space. . . . "Jim," she sighed presently. "I think I'm the happiest girl alive. . . . "If conquest is the height of a woman's happiness, you ought to be," he answered, still holding her close, as if he were afraid to let her go. "For never was there a man more abjectly beaten by a woman than I am beaten by you. . . . And right at the very height of this wonderful new happiness of hers, she had a sudden feeling of chill fear. . . . "That is a. . . . a queer way to put it, Jim," she said, not quite steadily. "Is it being beaten to win what you want? To get the love you have been longing for? . . . "Being beaten," he answered slowly, "is finding that you are weaker than the force you have been fighting, and surrendering to it. . . . Giving up the fight. . . . Owing up that you can't stand against it any longer. . . . That is being beaten, Lucy. . . . She tried to draw away, the little fear in her eyes now. But he held her fast and would not let her move. . . .

"Ames?" The question shot out from between his lips and hers, as he moved the fraction of an inch from a kiss. . . . "Never, do you doubt it? I liked him. . . . was fond of him as I might be of a brother. . . . But I never have loved any man but you. . . . "He says that he is going to make you leave me. . . . He can't, can he?" . . . "Only one person can make me leave you, Jim; you yourself. . . . "Then you'll never leave me now, Lucy. I'll never let you out of my sight again! Do you know what it is to long for anything as I have been longing for you? I don't believe you do. . . . I don't believe anyone could. . . . "Jim," she answered, lifting her lips to his, "I love you, too. . . . Don't you think that I must know something about it? I've loved you all the time you have been saying that you hated me. . . . All the time I thought you were in love with Jocelyn. . . . Don't you think that perhaps I know something of what the longing of love can be? You have at least always known that I love you. . . . while I have had to think that you hated me. . . . He crushed that off her lips with his own. "Ah, don't!" he cried. "Girl, it's been such hell. . . . But you haven't thought lately that I hated you. . . . ?

"You have known that I loved you? Haven't you? Isn't that what you meant yesterday? Isn't that what you tried to make me confess? Well, you've done it. You have got it from me. Beaten me. go hang. . . . Look at me. . . . Give me your lips. . . . Just love me as I love you. . . . Ah, darling, if you knew how I have longed for you. . . . Longed to take you in my arms. . . . Longed to kiss your lips. . . . It's purgatory to want anything as I have wanted you." He was penetrating his words with kisses that fell on her hair, on her cheeks and lips and throat. . . . "Jim. . . . Jim. . . ." she faltered out breathlessly, amazed, almost afraid, of the wildness of his passion. "Lucy, I'm mad tonight, I think. . . . Mad with longing for you. . . . Mad with the sweetness and the beauty of you. . . . Do you know how lovely you are? Do you know what magic there is in your eyes? And on your lips. . . . ? And they are mine now, aren't they, Lucy? "And that is what has happened to you?" she said, after a moment. . . . "Yes," he said, with a short laugh. "That is what has happened to me." . . . "And, Jim. . . . do you want to stand against it any longer? Against love? Against me?" . . . He pulled her strongly to him. . . . "There's only one thing I want at the moment," he answered with another laugh. "And that's—you." . . . She was silent for some time, recovering from that, and realizing that he had said something from which she needed to recover. . . . "Jim!" she said at last, the name a cry. . . . "Don't question. . . . Don't think. . . . Take the love that's burning me up, and give me yours. . . ." he said, his lips touching hers. . . . But she strained away from him, the fear beating all through her now; her newly won paradise already shimmering away into cold, remote distances. . . . "Jim," she faltered. "Is it love that you are giving me? Is it love that you are asking me to give you in return? Is it, Jim?" . . . "What do you think?" he countered. "Ask yourself, Jim. And tell me the truth. . . . Is it love. . . . ?" She was pulling away from him, but he still held her tight. . . . "Can't you see that I'm mad with love for you?" . . . "Yes," she said slowly, a note of tears in her voice. "But, Jim, there is a difference between. . . . madness and love. . . . "Do you expect me to love you coolly? Do you think I can love you and not be mad for you? What are you asking of me, Lucy?" he said, with a touch of violence. She raised her blue eyes to his, very straightly, and he saw the fear that was in them now. . . . "No," she said, bravely. "I do not ask that of you, nor anything else that is impossible in the love between man and woman, and, Jim, I do not want it. . . . But there is a difference between love with madness, and madness without love. . . . There is a difference, Jim, and you know it. . . . "Don't play with me, Lucy. . . . I can't stand it. . . ." he said, warningly. "Whatever my emotion for you is, it is something that is stronger than myself. . . . And anything that is stronger than oneself is dangerous. Dangerous, Lucy. Do you understand?" The words fell from his lips harshly, and the arms that held her quivered with the intensity of their own strength. . . . "Let me go, Jim," she said, in a queer, low tone. . . . He crushed her closer yet. . . . "No," he said, without compromise. She did not struggle against him; she just remained passive in his arms and said again: . . . "Jim, let me go." . . . There was a moment's hesitation, this time before he spoke. Then he said: . . . "Why? When more than anything in the world, I want to hold you in my arms?" . . . "Because I've got to think. And I cannot think with your arms around me," she answered. . . . "And I do not want you to think. . . ." he retorted. "I want you only to love me. . . . She sent up a silent little prayer for wisdom; for the power to think clearly, and to do what was best; above all for the strength to withstand the drugging sweetness of his nearness, the heaven that lay within the circle of his arms, the ecstasy of his kisses. . . . "Let me go," she said, a third time. . . . There was a moment when she was crushed so close that she could scarcely breathe. Then she was thrust violently from him, and he was crying out: . . . "D—n it! You beat me always! Well, there you are. . . . I've let you go. . . . Now you can think. Only, Lucy, think quickly, I've let you go, but my arms are already hungry for you. . . . (TO BE CONTINUED.)

Just trying to believe that it isn't a dream, and that I shall wake up in a moment and find things. . . . as they were. . . . She caught a breath. . . . "Then if you are not playing with me, come here and show me that you love me. . . . Prove it to me. . . . "he demanded. She moved toward him again, that sweet, young shyness still in her eyes, and on her lips. Then held out her hands and finished the short journey at a little run. He remained unmoving, letting his arms hang at his sides, letting her stand close before him. . . . "Show me that you love me," he said again. She raised her hands and slid them up round his neck; pulled down his head, and laid her lips to his. . . . "Jim. . . . Jim. . . . I love you. . . . She whispered between soft little meetings of their lips. "Love you with all my heart and soul. Love you so much that I don't see how I could love you more. . . . And I want your love just as much as you want mine. . . . I've longed for it, just as you have. . . . And I'm yours. . . . Wholly. . . . Absolutely yours. . . . Dear, believe it; because it is the truth. . . . at that his arms were round her again, and reality was once more sent spinning into space. . . . "Jim," she sighed presently. "I think I'm the happiest girl alive. . . . "If conquest is the height of a woman's happiness, you ought to be," he answered, still holding her close, as if he were afraid to let her go. "For never was there a man more abjectly beaten by a woman than I am beaten by you. . . . And right at the very height of this wonderful new happiness of hers, she had a sudden feeling of chill fear. . . . "That is a. . . . a queer way to put it, Jim," she said, not quite steadily. "Is it being beaten to win what you want? To get the love you have been longing for? . . . "Being beaten," he answered slowly, "is finding that you are weaker than the force you have been fighting, and surrendering to it. . . . Giving up the fight. . . . Owing up that you can't stand against it any longer. . . . That is being beaten, Lucy. . . . She tried to draw away, the little fear in her eyes now. But he held her fast and would not let her move. . . .

Common Plant Credited With Odd Propensities

Volms of human history, forgotten hopes, faith, superstition, love of beauty, rise in the mind of the herbist as he comes upon the common St. Johnswort, *Hypericum Perforatum*, of Europe, standing beside a dusty American roadway. It nods its head of upper branches terminating in clusters of five-parted yellow-golden flowers with long yellow stamens in the wind made by passing automobiles. Ages ago it nodded thus as witches passed in the dusk, riding on broomsticks. Neolithic women, perhaps, discovered the mystic plant had curative properties. When Christianity came in it already was known as a worker of white magic, Pagans, adopting the new religion, still put a string of St. Johnswort over the door to ward off evil spirits, keep away disease, scare the devils. In Colonial times in Amer-

ica, teas were made of it for face washes. Our own grandmothers spent hours picking the tiny golden petals to put into bottles of alcohol to make a lotion for chapped hands, wrinkled faces. Its stem, one to two feet tall, is crowded with short branches with little oval, stiff leaves. Like modern witches the plant is lovely to look at. It brightens the dooryard of the poor. —J. Otis Swift in the New York World-Telegram.

Love and Live

People in love live longer, and better. Dr. Josiah Oldfield, noted London physician, told the audience at the annual meeting of the Lady Margaret hospital. . . . And the other extreme, nagging, is "slow murder," the doctor said. Purported assets of being in love, according to Doctor Oldfield, are: Better digestion. Glossier skin and sheener hair. Food tastes better. "When a woman starts nagging her husband," he said, "she is committing slow murder and at the same time taking the first step toward becoming baggard, ugly and old. When a woman goes green with jealousy she is straining her hepatic duct."

Early English Proverb

"You can't make a silk purse out of a sow's ear," is an early English proverb, and the first use of it appears to be in "The Pigeon of Ostrage" (1788). It appears also in Swift's "Polite Conversation" (1748) and again in Richardson's "Clarissa" (1785) and repeatedly thereafter.

#### JESUS RAISES LAZARUS FROM THE DEAD

LESSON TEXT—John 11:1-57.  
GOLDEN TEXT—Jesus said unto her, I am the resurrection, and the life; he that believeth in me, though he were dead, yet shall he live.  
PRIMARY TOPIC—Jesus Makes a Dead Man Live Again.  
JUNIOR TOPIC—Jesus Gives Life to His Friend.  
INTERMEDIATE AND SENIOR TOPIC—Jesus the Giver of Life.  
YOUNG PEOPLE AND ADULT TOPIC—The Christian Assurance of Immortality.

I. Lazarus Sick (vv. 1, 2).  
Even those who are in close fellowship with the Lord are not immune from sickness.

II. Martha and Mary Send for Jesus (v. 3).  
Because they had come to know Jesus as more than a mere man, they instinctively turned to him when the shadow of death fell across their home. Those who receive Jesus into their home when all are well and happy can be sure of his love and sympathy when sickness and death overtake them.

III. Jesus' Strange Delay (vv. 4-6).  
Martha and Mary sent for Jesus because he loved Lazarus. They said, "He whom thou lovest is sick." Observe that when Jesus heard that Lazarus was sick he "abode in the same place" because he loved Lazarus and his sisters (v. 5). This mystery is to be explained by the fact that Jesus was divine and knew all things.

IV. Jesus Goes to the Bethany Home (vv. 7-17).  
Jesus knew, and apparently the disciples knew, that going into Judea at that time meant his own death. He told his disciples that his purpose in going was to awaken Lazarus out of his sleep to the intent that they might believe (vv. 11-15). Jesus fearlessly discharged his duty even though his life had been threatened.

V. Jesus Teaching Martha (vv. 18-27).  
As he was nearing the village, Martha met him with a complaint because of his delay. He ignored her complaint and taught her concerning the resurrection and life.

1. "Thy brother shall rise again" (v. 23). Most blessed words are those to fall upon the ears of a sister sorrowing for a dead brother.

2. "I am the resurrection and the life" (vv. 25, 26). He is the source of life and all who are joined to him by a living faith experience such a vital fellowship as is unattainable by any bodily change, death being but an incident in the course of an endless life.

3. "Thy brother shall rise again" (v. 23). Most blessed words are those to fall upon the ears of a sister sorrowing for a dead brother.

VI. Jesus Weeping With Mary (vv. 28-35).  
Mary fell at Jesus' feet uttering the same words used by Martha but no doubt with a different tone of voice and attitude. She had been sitting at his feet in the days of sunshine, therefore, she knew where to go in time of sorrow. Being a real man, he suffered with these bereaved sisters, and though he knew the joy that was so soon to come in the restoration of life to Lazarus, he wept.

VII. Jesus Raising Lazarus (vv. 38-44).  
In this stupendous miracle we see an illustration of the quickening into life of those dead in trespasses and sins. Observe:

1. Lazarus was dead (v. 39). This is a type of the sinner dead in trespasses and sins, even morally corrupt (Eph. 2:1).

2. The stone must be rolled away (v. 39). As Christian workers we should remove every obstacle from between a dead sinner and a life-giving Saviour.

3. Martha's protest of unbelief (v. 39). She insisted that Lazarus had already undergone putrefaction. Christ is able to save the sinner regardless of the degree of his sins.

4. Christ's intimacy and fellowship with the father (v. 42). In his prayer he declared that it was not for his sake that he prayed but for those who stood by.

5. Christ's manner of dealing with Lazarus (v. 43). It was by a call. He is calling men and women today by his Spirit, Word, and providence.

6. The response of Lazarus (v. 44). This shows that the call of Jesus is with authority and power.

7. The command to the people (v. 44). They were to remove the grave clothes and set him free. They could not make Lazarus live, but they could remove the grave clothes which bound the man whom Christ made alive.

VIII. The Effect of This Miracle (vv. 45-57).  
1. Some believed (v. 45).  
2. His enemies sought to put him to death (vv. 46-53).  
3. His withdrawal (v. 54).

SOME GLEANINGS

Worldly fame may be a defame at the judgment. . . .  
No one has a lock on the gate to heaven or salvation. . . .  
Having Christ your security, there will be no scarcity. . . .  
I never could understand how personal resentment paid anyone.—Abraham Lincoln.

"BY SWITCHING TO TARGET MY HUSBAND SAVES 50 CENTS A WEEK"

We had to cut down expenses, so my husband did his share by switching to Target and rolling his own cigarettes. I felt kind of sorry for him at first, but I notice he's more cheerful than ever. . . . He tells me that Target rolls up into cigarettes that look and taste like ready-mades. Target is the same mixture of foreign and domestic tobaccos that the ready-mades use. You get 40 special gummy papers free. No wonder my husband tells me he's glad he changed. He's getting more cigarette pleasure than ever, and we're saving about enough to pay for the family's bread and butter each month."

HUSBANDS, PLEASE NOTE!

You pay less than one-sixth the government tax on ready-mades when you roll your own from TARGET. Buy a pack of TARGET. Roll yourself fifteen or twenty smokes. If you don't say they are the best cigarettes you have ever smoked, return the half empty pack to your dealer's and you'll get your dime back.

Frederick spelled badly and received very poor grades. One day he returned with a paper well sprinkled with the usual crosses. His mother looked it over. . . . "Here is one word marked wrong that is right," she said. . . . "No, she knows," replied the lad hopelessly. . . . "You must show it to your teacher, anyway," said his mother. Frederick did as he was told and returning to his mother, reported: . . . "She was right," he said. "She says that k-n-e-w does not spell canoe."

### Scolds neighbor for using lifeless suds

I'm surprised at you—trying to get a clean wash with such flat suds! Just try Rinso and see the difference. It gives the richest, softest suds you ever saw! Clothes come so white, you'll be amazed. I never use any soap but Rinso."

For tub washing, too

Makers of 40 famous washes recommend Rinso. Great for tub washing, too—takes out dirt—saves scrubbing and boiling—saves the clothes!

Cup for cup, Rinso gives twice as much suds as lightweight, puffed-up soaps. Lasting suds, even in hardest water. Marvelous for dishwashing, and for all cleaning. Get the BIG package today.

## When TEETHING makes HIM FUSSY

One of the most important things you can do to make a teething baby comfortable is to see that little howls do their work of carrying off waste matter promptly and regularly. For this nothing is better than Castoria, a pure vegetable preparation specially made for babies and children. Castoria acts so gently you can give it to young infants to relieve colic. Yet it is always effective, for older children, too. Remember, Castoria contains no harsh drugs, no narcotics—it is absolutely harmless. When your baby is fretful with teething or a food upset, give a cleansing dose of Castoria. Be sure you get genuine Castoria with the name:

Lucky, but Doesn't Know It

Wealth is okay in its way, but the wife whose husband saves a little out of his lunch money every day to be able to bring a dollar bunch of flowers on Saturday night because he loves her, needn't waste any time envying the woman whose husband gives her a \$5,000 fur coat to square himself for something he's been caught at.—Cincinnati Enquirer.

A Scare for the Wolf

"Do you think I could keep the wolf from the door by my singing?" asked the musical young man. . . . "You could," replied Miss Cayenne. "If the wolf had any sort of an ear for music."

Brain's Maturity

The brain reaches its full size and weight at about the same time the rest of the body matures; that is, between the ages of twenty-two and twenty-five years.

## SEVERE COUGH COULDN'T SLEEP

Logansport, Ind. —Just the least exposure would cause me to catch cold and it would settle in my bronchials, setting up an irritation, followed by a severe cough," said Mrs. Milton Warner of 416 Bartlett St. "I would have such severe coughing and choking spells that I would feel weak and faint afterwards. I could scarcely sleep at night for coughing, but since taking Dr. Pierce's Golden Medical Discovery I have not had this trouble; it strengthened my bronchial tubes and I do not catch cold nearly so easily." **Way of Life  
by BRUCE BARTON**

**Blessed Are The Competent**

**I**n important New Yorker called me up to ask about two  
doctors who run a clinic in a little town in Canada. He knew  
that I had visited them some years ago and that they did me much  
good.

I described them to him in the words of one of their patients.  
"They are human ferrets," I said. "They seem to be able to discover  
and correct conditions where even specialists have failed."

The man went up to the clinic and stayed three weeks. Yester-  
day he telephoned me to say that he had not felt so well in years.  
He was so enthusiastic that I could hardly get him off the phone.

I sent another man up to Bill Brown's health farm opposite  
West Point. The man is vice president of a business that has had  
plenty of problems. He was nervous and discouraged. He came back  
from Bill's on the top of the world.

I referred a friend to an architect who has done some very  
clever work for us on our country house. My friend was delighted.

The doctors write me letters of thanks. So does Bill. So does  
the architect. They think I have done them a friendly service. I  
reply that, on the contrary, the obligation is entirely on my part.  
They have given me one of the best pleasures in life, the pleasure  
of recommending someone who is really competent.

How seldom we have that pleasure. What a discouraging lot  
of applications we receive from men who want to do something  
but have never done anything really well.

It is time for someone to reprint and redistribute Elbert Hub-  
bard's *Message to Garcia*. It tells, you remember, how President  
McKinley, when the Spanish War broke out, needed to get imme-  
diate word to the leader of the Cuban insurgents, General Garcia.

Some one told the President that there was a man named  
Major A. S. Rowan who could find Garcia.

Major Rowan took the letter, asked no questions, sought no  
directions or advice, but quietly and promptly set sail for Cuba,  
made his way through the wilderness and delivered the letter.

Hubbard sang his praises. "Civilization is one long anxious  
search for just such individuals," he exclaimed. "Anything such a  
man asks shall be granted. He is wanted in every city, town and  
village—in every office, shop, store and factory. The world cries  
out for such; he is needed and needed badly—the man who can  
'Carry a Message to Garcia.'

I do not think that humanity is inherently selfish or hard-  
boiled. I think there are many business men who would like to help  
their fellows to better jobs and more business. But so few of those  
who would help have ever delivered anything.

Now and then comes one who does deliver. And what a joy  
it is to recommend him!

charge of the program. An attend-  
ance prize has been offered, so show  
your interest, and work for the prize.  
Business meeting after the supper.

**Ladder Superstition**  
The origin of the superstition about  
walking under a ladder is not known.  
It probably arises from the fact that  
in very early times culprits were often  
hanged from ladders propped against  
buildings. Believers in the supersti-  
tion say that bad luck will follow  
those who walk under a ladder, un-  
less he makes a wish. In England the  
superstition has it that an unmarried  
woman who walks under a ladder will  
not be married for a year. To those  
believing this superstition it is also  
considered unlucky to walk on a lad-  
der lying on the ground.

**How Lindbergh's Father**

Found "Man" in His Son  
Charles A. Lindbergh's father dis-  
covered "the man" in his son when  
they went fishing for the first time,  
according to the story of "The Lind-  
berghs" in McCall's Magazine. Charles  
was twelve years old.

They started from Lake Itasca and  
for two weeks were alone on the river  
and lakes in northern Minnesota. They  
were two men who cooked their meals  
together over a fire in the open and  
slept out. When they returned Con-  
gressman Lindbergh said:

"That trip with Charles was one of  
the happiest times in my whole life.  
I learned to know my boy in those two  
weeks as I had never known him be-  
fore. I found the man in him. He  
has good stuff and will stick. He  
stood up under the discomforts of that  
trip as I never expected he would. A  
good experience, that was, for both  
of us."

**Steamers Among Clouds**  
The Pacific Steam Navigation com-  
pany's motor ship La Paz recently left  
Liverpool for South America. In her  
hold was packed a complete steamship,  
capable of carrying 100 passengers  
and heavy cargo. At Mollendo, in  
Peru, all these thousands of plates,  
rivets, funnels, boilers, engines, fit-  
tings, and furniture were to be re-  
packed into trains and carried 220  
miles to Puna, on the shores of Lake  
Titicaca, 12,500 feet above the sea,  
where the ship was to be assembled  
for entering the lake service. This is  
the eighth steamer to be sent to Puna  
in this way; the first was sent in 1861.

**SOME SIMPLE RULES**

A letter reached me from a friend in the great state of Texas this week, a good, warm-hearted message, breathing the generous spirit of the south.

After his words of praise for my humble effort, he just wondered what would be good for an acid stomach. He is a young man, very diligent in his work on farm or ranch; in fact I will wager that he doesn't take time to properly masticate his food, so keen was his desire to get back to the field. Here, in part, is some of the advice I gave him:

First, if a tobacco-chewer, cut out chewing for a long time before meals. Save the saliva for digestion; it neutralizes the excess of acid; that's what it is there for—not to be spat out with tobacco juice, leaving the acid to do its harm.

Second, keep the bowels moving regularly with a good preparation of magnesia. Then, take time to eat—to chew the food thoroughly.

Third, use "smooth," bland, soft-cooked food. No hard, rough, irritating thing. I am convert to the smooth diet; am rebelling most earnestly against all harsh, coarse, indigestible forms.

I urged the well-balanced diet—a portion of most all the good things to eat—no excess of any. A good breakfast, a well-rounded dinner at noon. A mild bit of refreshment for supper, when the body is tired from the labor of the day. The long night of rest fits the stomach for a good, tonic breakfast again. These simple suggestions may be helpful to other workers who are not "sick," but simply functioning wrong.

**Railroads in Nation**  
How many railroads are there in the United States? There are 1,637, including 174 class 1 having an operating revenue above \$1,000,000; 282 class 2, having operating revenues from \$100,000 to \$1,000,000, and 845 class 3, having operating revenues below \$100,000.—New York World-Telegram.

A mail carrier presents official figures showing that in the course of his forty-two-year career he walked a distance equal to nine journeys round the earth. But the housewife, the waitress, the bus conductor, the doctor and many another person who does not seem to move far from one spot takes, in reality, an astonishing amount of exercise. Pedometer records have shown that a woman with a husband and two children, walked about fifty miles in the course of a week. In another case tested by pedometer, a girl dancer at a theater, who has plenty to do on the stage, found that her work entailed fewer steps than that of a housewife who had no children to look after. Schoolboys and girls have been found to walk more than seventy miles a week, in the course of their restless fittings hither and thither. A London bus conductor has a very strenuous day's physical labor. In addition to walking about thirty miles in the course of his week's work, he has been found to climb every day the equivalent of nearly two-thirds of the height of Mount Snowdon. A golf professional discovered that he had walked a little over 110 miles in the course of giving 54 ordinary lessons to beginners on the links.—London Mail.

**OLD LEE HOMESTEAD IS BEING RESTORED**

**Will Revive Life and Culture of Old South.**

Richmond, Va. — Stratford Hall, homestead of the Lee family in Virginia, a center of historical interest and a symbol of the life and culture of the Old South, has been saved for posterity. Through the efforts of the United Daughters of the Confederacy and the Lee Memorial foundation the mortgage on the eleven-hundred-acre estate in Westmoreland county has been paid off and the last obstacle to the preservation of the mansion as a national shrine has been removed, says the New York Times.

There remains now the work of renovating the fine old house and restoring the extensive grounds which formerly made it one of the show places of the state, and this work will proceed as funds for the purpose are made available. Within a reasonably short time plantation life of the Eighteenth century will be resumed there in all its picturesque phases.

Completion of the purchase fund marked the close of another chapter in a dramatic story which had its start in Greenwich, Conn., early in 1923. Mrs. Charles D. Lanier of Greenwich, Head of the William Alexander, Jr., Chapter of the United Daughters of the Confederacy, while rummaging through a desk which belonged to her mother-in-law, Mrs. Sidney Lanier, widow of the poet, came upon a penciled manuscript by Lanier, until then not known to exist.

**A Speech on Lee's Death.**  
The paper proved to be a speech he had made in Macon, Ga., in 1870, on the death of General Lee, in which he urged the establishment of a memorial "by contributions as shall be within the compass of the humblest citizen who loved him and who desires the grateful privilege of laying some tribute on his tomb."

On the following day Mrs. Lanier received a letter from a friend describing a visit to Stratford and asking why it could not be preserved. On the same morning she called a meeting of her organization, which resulted in the adoption of resolutions looking to the acquisition of the homestead. After months of successful Charles Engeman, the owner, for its purchase, and the Robert E. Lee Memorial foundation was formed to acquire the property and conduct a campaign for contributions in all parts of the country. The price was fixed at \$240,000. The mortgage was cleared away by an unconditional advance of \$115,000 by a prominent Delaware woman.

Stratford hall is more than two hundred years old and bears the distinction of having been the birthplace of

two signers of the Declaration of Independence, Richard Henry Lee and Francis Lightfoot Lee, as well as the home of "Light Horse Harry" Lee and other generations of the distinguished family.

It stands on a hillock not far removed from the Potomac in a section of the Northern Neck which the older generation of Virginians especially looks upon as hallowed ground. The estate fronts for two miles on the river, and within a few miles are the birthplaces of three Presidents—Washington, Madison and Monroe.

The house itself, built in the shape of the letter H, is two stories in height, with a tall basement forming the first floor, and is topped by massive quadruple chimneys on each wing. It was started in 1729 by Queen Caroline, wife of George II of England, with a gift of \$300 toward the cost of its erection following a fire which destroyed the original manor house, on the site of which now is located the Lee family burial plot.

**The House Well Preserved.**  
The mansion, in a fine state of preservation, is built of brick on English lines by English standards, with walls of fortress thickness, and was known as the stately house of its time in Colonial Virginia.

In restoring the plantation with its Colonial atmosphere and its arts and industries as pursued two centuries ago, the old brick and saw mill, now in ruins, will be rebuilt and placed in operation. Spinning, weaving and wrought-iron craftsmanship will be practiced for the enlightenment of visitors and students. The tobacco warehouse will be reconstructed, and scenes of the old planting season revived. The old kitchen with its 12-foot fireplace, will be fixed again, and the tall brick wall again will hide the ordinary operations from alien eyes.

The Garden Clubs of Virginia will complete the restoration picture with landscaping, terraces, flowers and rare shrubs such as once were the pride of the Lees and the delight of their many distinguished guests.

**AFRICAN CANNIBALS CRAVE EPSOM SALTS**

**Will Spend Week's Wages for a Single Dose.**

New York.—Mrs. William S. Seabrook, who shares the explorations of her noted husband, says that a white man can prosper by retailing epsom salts to the natives on the Ivory coast.

"Epsom salts," she says in the American Druggist, "are white magic to the people who deal in black magic; people who will work for a week to buy a single dose of salts, and consider themselves lucky to get it."

"One charming cannibal to whom my husband and I were indebted made a single request when asked how we could repay him for his many favors. He replied quickly and naively: 'Yes, send me epsom salts, and my fortune is made.'"

"His idea was to go into the cut-rate business and sell epsom salts for ten cents."

"Natives of the Ivory coast suffer terribly from constipation. Here you have a primitive people struggling with nature in a dense jungle, afflicted with a condition which we have been told results from a civilized and sedentary life. The difficulty is with their diet. They eat practically no greens

and even among cannibals starchy food predominates.  
"Witch doctors and sorcerers brew magic stews and make a lot of mumbo-jumbo, but the black men have discovered the efficiency of the white man's drugs, so they beg to borrow or buy them whenever possible. They may continue the treatment prescribed by their own witch doctor because in no event would they want to hurt a local practitioner's feelings; but if they can combine witches' brew and a good stiff cathartic, they feel pretty certain of complete cure."

**THEY DON'T CHANGE**

By THOMAS ARKLE CLARK  
Emeritus Dean of Men,  
University of Illinois.

We change very little after we are beyond the high-school age. I may have emphasized this fact at one time or another before, but it is more and more impressed upon me as time goes on. Between fourteen and eighteen our habits are pretty definitely formulated, and if they change it is generally only in degree. Only a revolution or a crisis will effect any material change.

I used not to think so. Going to college or getting married, or taking up a business of some sort, I imagined would work miracles in the development or the modification of a man's character. I see now that none of these things makes very much difference.

I hadn't seen Maguire for more than thirty-five years until he dropped upon me a few weeks ago. He was the wittiest, cleverest man in my class, cheerful, happy, ready for a lark and ready to laugh at a good joke even if it were on himself. He did his work easily and well; he had a keen insight into human nature and a dependable judgment in critical matters. He was clean-minded and reverent. When he decided to enter the legal profession, we all thought he had chosen wisely, and then having finished law he suddenly decided to enter the priesthood of the Roman church. I hadn't cast him in that role, but the qualities he had revealed when we were young fellows are admirable qualities for a leader of the church.

He had not been in my office ten minutes until I saw that, priest that he is, he has not changed excepting to strengthen the fine qualities which he had revealed when we were boys together. He still has the happy outlook upon life and the keen sense of humor which is so characteristic of the Irish.

If shoes do not polish readily give two coats blacking, let dry before putting on third coat, then polish and you will get a good shine.

Always put your knife in boiling water for a few seconds before cutting cake that has been iced. You will then be able to cut without breaking the icing.

Mix a piece of butter with a blanc mange while it is still boiling and you will have no trouble turning it out of the mold when the pudding is cold. Moreover, it will have a much glossier appearance.

**Lard and Perfumes**  
Choice perfumes are made by a process known as cold enfleurage. A thickness of cold lard is placed on glass slabs in wooden frames. Flowers are placed on this lard. Each day fresh flowers replace the old ones until the lard becomes saturated with their perfume. The lard is then dissolved with cold alcohol which evaporates, leaving the extract.

**Honored for Valor**

The Cheney award, consisting of a plaque, a certificate of award and a substantial cash contribution, was awarded to Private John B. Smith of the United States army air corps. The award, made annually to the officer or enlisted man of this branch of service performing the outstanding act of valor during the year, was made to Private Smith who, when a plane crashed into the building in which he was working, dived head first into the blazing cockpit and liberated the pilot's foot which was firmly wedged in the rudder bar. Smith, though injured by the crash, then removed the unconscious pilot to a place of safety.

**Fifty and Fit**

**A MAN is as old—or as young—as his organs.**  
At fifty, you can be in your prime.  
Why go along with "fairly good health" when you might be enjoying vigor you haven't felt for years?  
There's a simple little thing anyone can do to keep the vital organs stimulated, and feel fit all the time. People don't realize how sluggish they've grown until they've tried it. The stimulant that will stir your system to new life is Dr. Caldwell's syrup pepsin. It will make a most amazing difference in many ways.  
This famous doctor's prescription is a delicious syrup made with fresh herbs, active senna, and pure pepsin. It starts its good work with the first spoonful. That's all you need to drive away the dullness and headache of a bilious spell, and rid the system of that slow poison that saps your strength. It's better than a tonic for tired bowels, and unlike habit-forming laxatives you can take it freely or give it to any child. And it isn't expensive.  
Get some syrup pepsin today, and take a little tonight. Don't wait until you're sick to give your system this wonderful help. You can avoid those spells of helplessness or constipation. A spoonful every now and then is better than constant worry about the condition of your bowels, or fear of auto-intoxication as you grow older. Dr. Caldwell's syrup pepsin protects the system. All druggists keep this preparation.

**CULLOM HIGH LOSES A THRILLER**  
Cullom High lost a thrilling game to the Piper City preps on the Cullom court Friday night by a close score of 18 to 17.

Cullom stepped out in the first quarter by collecting seven points, while Piper City was held scoreless. At the end of the half the score was tied, 10-10. The third quarter ended with Piper leading 16 to 11. The final quarter was a thriller with Cullom leading part time and Piper City the rest. Farber was the principal offensive man for Cullom by collecting nine points, while Cullom of Piper got seven points.

**ENTERS RESTAURANT BUSINESS**  
A. B. Cook, well known Cullom man, has purchased a restaurant at Oneida, Ill., and will take possession March 1st. The building is being redecorated and put in first-class condition for the new proprietor.

Mr. Cook has been engaged in the garage business in Cullom for a long term of years, and is known as one of the best mechanics we ever had.

Oneida is located in the western part of the state, close to Galesburg. Two former Cullom families have been located there for some time, the Gus Anderson and Herbert Whitman families.

Both Mr. and Mrs. Cook have a large number of friends in this community who will be sorry to see them leave, but who wish them well in their new home.

**CLARENCE J. FARBER PROMOTED**  
Clarence J. Farber, of Dwight, son of Mr. and Mrs. L. J. Farber, of Saunemin, who has held a position in the Illinois State Reformatory for a number of years as assistant to C. C. Jones, who had charge of the Bertillon System of the institution, has been moved to Springfield where he will be assistant in the State office which has charge of identification and Bertillon Department. This is a fine advancement for Clarence and carries a good salary.

## PONTIAC CHOIR IN POPULAR DEMAND

The A Cappella choir of the Pontiac township high school is a busy organization at this time of the year. They are in the midst of their spring concert season, with two concerts already given and six to look forward to.

The seventh of February the choir gave a sacred concert at the Graymont Baptist church. Last Thursday night twenty-five high school students journeyed to Cullom to present a varied concert before a good sized audience. The concert there was sponsored by the Cullom Parent-Teacher association with a part of the proceeds going to the A Cappella choir. The program was well received.

The choir at present consists of the following:  
Sopranos, Florence Johnson, Orile Sackett, Evelyn Sackett, Phyllis Robinson.  
Second sopranos, Thelma Anderson, Adele Eisenhower, Alma Robinson and Florence Asper.

Alto, Kathryn Fischer, Doris Shepherd, Jane Morrow and Ruby Manley.

First tenors, Milton Mossholder, Martin Robinson and James Morrow.  
Second tenors, Richard Claudin and Russell Harris.

Baritone, Clement McDaniel, Donald Shepherd, Billy Mullaney, James Stephens and Roy Dawson.

Basses, Reginald Maeker and John Morrison.

Substitutes who will appear with the choir when needed are: Mary Rodino, Ferne Nicol, Mary Schaffer, Lorraine Hendershott, Herbert Heath, Ross Nickelson and Peter Stadler.

The concerts yet to be given are: Saunemin Methodist Episcopal church, Cornell Methodist Episcopal church, Fairbury Presbyterian church, First Methodist Episcopal church, Bloomington, with a home concert to be given at the First Presbyterian church.

**KRUGHOFF ANNOUNCES GRID CHART FOR 1932**  
Coach Orville Krughoff of Saunemin High School, has made public his 1932 football schedule. Nine games are carded for next fall, the Saunemin eleven opening at Herscher Sept. 17 and concluding its campaign at Cullom on Armistice day.

Following is the complete Saunemin schedule:  
Sept. 17—Herscher at Herscher.  
Sept. 24—Cissna at Cissna.  
Oct. 1—Cullom at Saunemin.  
Oct. 8—Chatsworth at Saunemin.  
Oct. 15—Gridley at Gridley.  
Oct. 22—Porter at Saunemin (homecoming and cross-country meet).  
Oct. 29—Moore Township at Farmington.  
Nov. 5—Lexington at Saunemin.  
Nov. 11—Cullom at Cullom.

**FORD TO LAUNCH 8-CYLINDER CAR**  
Detroit, Feb. 11.—Henry Ford today announced creation of a new eight-cylinder Ford to augment the present model A four cylinder car.

Specifications of the new V-8 were not announced but production starts next week with the first showing scheduled early in March. The price was not disclosed, other than that the new model will be in the low price field.

The continuance of the present four is the result of a flood of letters demanding that the four cylinder car be perpetuated.

**Silent Auctions**  
New York has caught on to an idea that has been extensively used for years by many stores in other parts of the country. The idea is nothing else but a price carried over a set of books, or other article of some value. Each day, when the shop opens, the price is marked down \$1 until it gets so low that somebody goes in and buys the article.

It has been labeled a "silent auction" by the shopkeepers. It certainly moves goods, whether it makes money for the owner or not.

**A Hobo's Paradise**  
As soon as the ground had been cleared for the new Radio City, or whatever the name is going to be of Rockefeller's new development in the heart of this city, numerous hobos without a place to sleep swarmed on the open space.

They found plenty of scraps of wood with which to build fires, both to keep warm and to cook their "stew," and were undisturbed for several weeks, or until the structural steel began to arrive for the new buildings.

Their temporary home was probably the most expensive site on which tramps were ever allowed to camp. Even the police let them alone, as it was not a public park.

**New Form of Theft**  
If one attempts to enter one of the big office buildings at night some guard is always to be found blocking the way. The other day we asked one of these men why the building was so strict in letting people in outside of business hours. We pointed out that it would be almost impossible for a visitor to carry off anything of much value.

"That's what you think," he said. "The worst trouble we have in buildings like this late at night is the habit of some of the clerks coming downtown, entering the office where they work during the day, and then putting in a long distance call over the telephone, for which the boss pays."

**SHOULD LEARN LATIN**  
A man went into a shop to buy a fountain pen. The young saleswoman gave him one to try, and he covered several sheets of paper with the words "Tempus Fugit."

The saleswoman offered him another pen. "Perhaps," she said, "you'd like one of these better, Mr. Fugit."

**PETERSBURG GIRL FIRST**  
First place in the "Prince of Peace Declamation Contest" was won by Mary Helen Goff, 14-year-old high school freshman of Petersburg. Harold Livingston, of Peoria, was second place, and Leonard Carlson, of Geneva, was third. The contest was held in connection with the meeting of the Illinois Convocation of Ministers at Springfield.

The event was celebrated by a High Mass in St. Mary's Catholic church in Loretto, after which a wedding dinner was enjoyed by relatives at their home.

Mr. and Mrs. Barney Kelley, well known Union township people, celebrated their golden wedding at their home on Saturday, February 20th, 1932. The children of the Kelleys were all home for the wedding dinner served on Saturday.

## TO INCREASE SECTION FORCE

An official of the Wabash railroad was in Saunemin last Friday to interview Section Foreman Charles Schadow concerning track upkeep, etc. He stated that the Wabash would probably during March increase the section man force from one man to possibly eight. This sounds good to the unemployed in this section. He stated that the plan is to set the road bed in the best possible shape for the travel expected during the World Fair.

## NEW PAPER FOR WATSEKA

A new 8-page weekly paper with a Democratic tone in politics will make its appearance at Watseka soon according to rumors. It will be known as the Iroquois County Democrat.

Edward Beckley, former Watseka man who later conducted a newspaper at Fowler, Indiana, is to be the editor and the publication will be issued from the Smith & Rush printing plant in Watseka.

The paper was endorsed by the county Democrat central committee at its meeting a few days ago.
